All things may come
To those who wait,
But when they do
They're out of date.

To Our Delinquents.

You all are aware that we have sustained a heavy loss by fire with no insurance and no recourse but our old accounts. We sent each and every one who owed us for one year's or more subscription an appeal to pay up that we might resume business as soon as possible. At that time we had out \$350 on subscription alone, and of this amount we have collected nearly one-eighth. We know you can pay this small amount, and as you have placed us to such inconvenience we have decided to place each and every account in the hands of a publisher's collection agency that is not paid up in ten days. We very much dislike to have to do this but we have to raise some money and this seems to be our last resort. If you want to hold your reputation and credit you had better send in the small amount you owe. Send by check, money order, registered letter or two-cent stamps if the sum is less than one dollar.

Married By Wire.

Miss Maude Wilentt stood in the telegraph office at Bowling Green, Ky., Saturday night, and became the bride of Dr. J. W. Simmons, of Peaster, Texas.

They were married by wire. The questions were asked from the Texas end by a justice of the peace and were answered by Miss Wilentt. Miss Wilentt, at present, is teaching school in Butler county. She and Dr. Simmons recently met while traveling. The operator and newspaper acquaintances were the Bowling Green witnesses to the marriage. Mrs. Simmons will leave next week for Texas to join her husband.

The annual report shows the daily average of prisoners in the Frankfort penitentiary to have been 1,235. Jefferson led all other counties in number of prisoners sent up during the year, having sent up during the year 260. Fayette county came next with 119; Madison is third with 35. A unique feature is that Kenton and Campbell counties, with a population ranking up next to these, sends only a few convicts each year, which may be accounted for by the fact that criminals in those counties go to Cincinnati to do the work, and if they get into trouble it is with the Ohio law.

Neither Governor Beckham nor the State Parole Board seem to have worked over time, only thirty-seven pardons and thirty-eight paroles being recorded during the twelve months past.

WANTED—Several persons of character and good reputation in each state (one in this county required) to represent old established wealthy business house of solid financial standing. Salary \$18.00 weekly with expenses additional, all payable in cash each Wednesday direct from head offices. Horse and carriages furnished, when necessary. References. Enclose self-addressed stamped envelope. Manager, 316 Caxton Building, Chicago.

The carpet house of Lowry & Gabel, Cincinnati, suffered a loss by fire of \$75,000. The junior member of the firm is Author Gabel, a brother of the late Gov. Gabel, and is reported that many of his private papers bearing on his brother's murder were consumed, thereby making the loss one of public concern.

Try our cough mixture. Best in the world. 25cents for 46z. B. Littlepage & Son.

The Cynthiana Democrat says: "Everything passed off quietly at Lexington Sunday. A woman was severely cut, a man beat his wife, a step-daughter knocked her step-father in the head with a loaded cane, negro women had a duel with knives, a negro man was arrested for carrying concealed weapons and threatening the life of a woman. But the usual murder or suicide was missing. The town seemed very dull."

You should see those nobby Hats at Mrs. Williams's,
Clay City, Ky.

Stanford citizens have organized a company to bore for oil in the town limits. A few years ago in boring for water a gas vein was struck, which on being ignited burned at a high altitude for several days.

A minister one Sunday evening was preaching to a sleepy congregation; to wake them up he said: "Brethren, wake up! You really cannot know that your minister is preaching to you this evening with only half a shirt to his back," and they woke up. In the following week he had several parcels sent to him containing new shirts, the senders hoping he would excuse the liberty they were taking in sending them to him. Several ladies, more anxious than others, called on the minister and expressed their sorrow at his being poor. "Dear friends, don't you know that the other half was in front?" The ladies blushed, smiled and turned away.

A Remarkable Record.

Harrison Swango, the venerable proprietor of Swango Springs, when he voted at the recent election made the remark, "this makes 60 times that I have voted at this one precinct." He is now 87 years of age, and this shows that he has voted at every election since he was 27 years of age.

Never lost a day from sickness. Only the other day he was seen feeding his cattle, and on most any day may be seen going to or from Hazel Green on horseback. Indeed he is as active in mounting and dismounting as many men not half his age.

Buttermilk.

Buttermilk as a remedial agent cannot be praised too highly. The lactic acid, the sour of the buttermilk attacks and dissolves every sort of earthy deposit in the blood vessels. Thus it keeps the veins and arteries so supple and free running there can be no clogging up; hence no deposit of irrigating calcareous matter around the joints, nor of poisonous waste in muscles. A quart a day should be the minimum.

The Smallest Family.

There is probably no family of people in Trigg county who are as small as the family of J. R. Bridges, of Maple Grove, says the Cadiz Record. There are seven members of the family—father, mother, and five children, and the total weight of all is only 462 pounds. The oldest child, a boy of 15, weighs only 62 pounds.

To Drill for Oil.

A local company leased nearly all the land around the Oil Springs, but a Lexington company leased Dock Enbank's land, a part of the old Eastin farm, and some other land. Wednesday a derrick and other tools for drilling were sent up the road and work will begin at once on the farm of Mrs. Gay near the West Bend Crossing. It is to be hoped that oil will be found in paying quantities.—Winchester Democrat.

ANNOUNCEMENTS.

CIRCUIT CLERK.

We are authorized to announce Mr. W. T. STRINGER, of Clay City, as a candidate for the office of Circuit Clerk of Powell County, subject to the action of the Democratic party.

A law that should be kept in mind by all who have building done, says an exchange, is the mechanic's lien law. By this law a workman or person who furnishes the material for a house may file a lien for the value of his labor or material any time within six months. A great many people are ignorant of this law and when the house is finished they pay the contractor without knowing whether he has paid for his material of which the house is built.

The Legislature which convenes at Frankfort Tuesday after the first Monday in January will be a remarkable body in one respect at least. More than 50 per cent. of its members will be men who served in the last Legislature, while 75 per cent. will be men who have served in one branch or the other at some previous time.

Capt. C. C. Calloun, of Lexington, has gone to Washington by order of Governor Beckham for the purpose of ascertaining the status of war account between Kentucky and the Federal Government, has discovered that \$917,701.02 is due this State as interest on money expended in supplying troops for the Union during the Civil war.

Prohibition does not prohibit in Maine. Some liquor officials made a search of the Hotel Temple at Portland last week, and after a two hours' search found an ingenious hiding place in the ladies' toilet-room on the third floor. Touching a secret spring a section of sheathing opened and revealed a receptacle within the wall containing a case of champagne, some whisky and beer. The high priest of the Temple was promptly run in.

In Congress, Kentucky for the first time in many years must take a back seat and play an unimportant and insignificant part in constructing legislation. With but one exception, all of her Representatives are on the tail end of trifling committees. This Grand Old Commonwealth seems to have lost her grip in Washington.

Adjutant General Murray has submitted his report on the State

militia to Gov. Beckham. He recommends, among other things, that the State appropriation be increased from \$7,000 to \$27,000 annually, and that some provision be made for preserving the records of the Kentucky Confederate soldiers.

If the life of the President can be further protected and saved by the introduction of bills in Congress to that effect it certainly will not be endangered. Already twenty-three bills of that nature have been offered in the House and Senate.

Poor Bill.

By chance we obtained possession of the following letter written by a young man in Texas to his father in Tennessee. The young man's name is—oh well we'll call it Bill Singleton for convenience.

Here is the letter: "Dear Pa: I am away out here in Texas, and don't no good at all. I wanted to look after some rich feller's business for \$40 a month, but he was not needing of my services. I got a job of plowing at \$15 a month. I worked all year for a boss. The boss is dead now. He had on new shoes when he died. I took them off and have them yet. Say, Pa, you ought to come out here and run for office. Some awful mean men git office here. This is no slow country like ours. They are all upon the hills here. The women is purty and can shoot a gun like a man. I don't know what I'll do. I hate to walk home, and won't if you will send me \$20. My boss I worked all summer for is dead. So no more at present. Bill Singleton."—Texas Mesquiter.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely. I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever. My wife in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours, F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.

A Good Cough Cure.

[From Gazette, Toowoomba, Austr.]
I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months and it has effected a cure. I have great pleasure in recommending it.—W. C. Wocker. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as Mr. Wocker. This remedy is sold by Morgan McKinney.

NOTICE.

I have recently purchased the soda fountain and business in general of C. E. Curry and when the season opens will be ready to supply the people with the usual refreshments. J. G. Easter.

Postmaster Palmer

of So. Glen Falls, N. Y., describes a condition which thousands of men and women find identical with theirs. Read what he says, and note the similarity of your own case. Dr. Miles' Heart Cure:

"I suffered agonizing pain in the left breast and between my shoulders from heart trouble. My heart would palpitate, flutter, then skip beats, until I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began taking Dr. Miles' Heart Cure, but it helped me from the first. Later I took Dr. Miles' Nervine with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial."

AN EARLY THOUGHT FOR THE SUMMER COTTAGE.

It is not too early to turn one's thoughts to the furnishings of the Summer home, especially if it is proposed to decorate it with artistic needlework. The January Delineator offers suggestions that may be developed by individual ingenuity until every available piece of furniture about the place is rejuvenated. The designs are shown in colors and black and white, and the stitches and materials described in detail.

Frozen to Death.

Saturday night two or three negroes from the country came to town, got drunk and at a late hour started for home out the Colby pike. One of them, Ed. Wesley, or "Black Annie," as he was generally known, aged about twenty years, was overcome by the combined effect of cold and whisky, and the next morning was found frozen to death near the residence of S. P. Hodgkin. Coroner Willis held an inquest without a jury and returned a verdict in accordance with the facts.—Winchester Democrat.

Get the Almanac that Predicted the Galveston Storm.

The Ladies' Birthday Almanac for 1902 is being distributed in our city this week. This publication achieved great prominence in September by its accurate prediction of the Galveston storm. The New York Times (Sept. 13th), said: "Galveston's disastrous storm was predicted with startling accuracy by the weather prophet, Andrew Jackson DeVoe, in the Ladies' Birthday Almanac issued in Chattanooga, Tenn., last January." It is so different from the ordinary cheap patent medicine almanac, that it has become very popular, and now has a circulation of 15,000,000 copies, annually. Our readers who have not received a copy of the 1902 edition, can get it from their merchant or by sending their address to the Ladies' Birthday Almanac, Chattanooga, Tenn.

Sensible old Bill Arp of Georgia condemns the higher education of the negro. He thinks the race needs moral training more than book learning. He says: "All this maudlin philanthropy has come from the idea that our negroes were savages until freedom came, when the truth is they were better fed and clothed and housed and far happier than the poor of the northern states."

THE NEW SKIRTS.

Form-fitting skirts are evidently not a fancy of the moment but have come to stay. The upper portion fits without a wrinkle and is drawn back by elastic straps, while the flounce at the bottom flares very noticeably. The making of these form-fitting or serpentine skirts is described in detail in the January Delineator by Mrs. A. L. Gorham, a number of illustrations being given of the different steps in the work.

Representative Gibson, of Tennessee, has introduced a bill for the relief of the tobacco growers, providing that it shall be lawful for any farmer to sell tobacco in the hand or in the leaf, or hand twisted, or hand pressed, of his own raising, without obtaining any license therefor or complying with any other of the laws and regulations in reference to the sale or manufacture of tobacco.

A deaf husband and a blind wife make a happy couple.

Chicago today is a city of nearly 2,000,000 inhabitants. Do you know what these figures mean? They mean that within the borders of the municipality are more people than live in either the state of Georgia or Minnesota, or New Jersey, or Virginia, or Wisconsin. They mean that there are gathered together more people than occupy Alaska, Arizona, Colorado, Delaware, Idaho, Maine and Oregon combined. New York is double the size of Chicago.

Rev Irl Hicks Not Dead.

Notwithstanding a widely current rumor that the Rev. Irl R. Hicks was dead, he never was in better health, and never did a harder and more successful year's work than that just closing. He has just completed his large and splendid Almanac for 1902 and, with his staff of able helpers, has brought his journal, World And Works, justly forward into international reputation. For a quarter of a century Mr. Hicks has grown in reputation and usefulness as the people's astronomer, and forecaster of storms and the character of the coming seasons. Never were his weather forecasts so sought after as now, his timely warning of a serious drouth this year having saved the people from loss and suffering. Millions of bushels of wheat were harvested through his advice to plant crops that would mature early. The American people will certainly stand by Prof. Hicks, when it costs them so little and so great are the benefits. His fine Almanac of 200 pages is only 25c and his splendid family journal is only one dollar a year including the Almanac. Send to World Works Pub. Co., 2201 Locust St., St. Louis, Mo.
